CONTENTS

NO. 1. FEBRUARY, 1941

| | |
|--|-----|
| The Effect of the Time Factor on the Amount of Pressor Material Present in Kidney after Unilateral Ligation of Renal Pedicle and after Unilateral Ligation of Ureter. <i>Julian R. Beckwith</i> | 1 |
| The Role of the Hypothalamus and Preoptic Region in the Regulation of Heart Rate. <i>S. C. Wang and S. W. Ranson</i> | 5 |
| The Effect of Epinephrine on the Potassium Balance of the Hind Limbs of the Frog. <i>J. Clifford Stickney</i> | 9 |
| The Activity of Hemolysins in Vivo. <i>Eric Ponder, Chester Hyman and Lyman White</i> | 18 |
| The Effects of Denervation on Phospholipid Activity of Skeletal Muscle as Measured with Radioactive Phosphorus. <i>H. D. Friedlander, I. Perlman and I. L. Chaikoff</i> | 24 |
| The Effect of Hyperpyrexia on the Secretion and Flow of Bile. <i>S. L. Osborne, F. S. Grodins, L. Goldman and A. C. Ivy</i> | 32 |
| A Reexamination of the Role of the Stomach in the Digestion of Carbohydrate and Protein. <i>J. M. Beazell</i> | 42 |
| The Effect of Histaminase on the Gastric Secretory Response to Histamine. <i>A. J. Atkinson, A. C. Ivy and Vivian Bass</i> | 51 |
| The Effects of Direct Currents upon the Electrical Excitability of Nerve. <i>A. Rosenblueth</i> | 57 |
| The Respiration of Isolated Liver and Kidney Tissues from Adrenalectomized Rats. <i>S. R. Tipton</i> | 74 |
| Effect of Ablating the Pyriform-Amygdaloid Areas and Hippocampi on Positive and Negative Olfactory Conditioned Reflexes and on Conditioned Olfactory Differentiation. <i>William F. Allen</i> | 81 |
| Circulation Time Through Aerated and Atelectatic Lungs in Dogs as Determined by the Use of Sodium Cyanide. <i>John L. Keeley</i> | 93 |
| Stimulation of Nerves by Direct Currents. <i>A. Rosenblueth</i> | 99 |
| The Stimulation of Myelinated Axons by Nerve Impulses in Adjacent Myelinated Axons. <i>A. Rosenblueth</i> | 119 |
| The Influence of Pregnancy and Sex Hormones on Gall Bladder Motility in the Guinea Pig. <i>J. J. Smith, M. M. Pomaranc and A. C. Ivy</i> | 129 |
| The Role of the Adrenal Cortex and the Anterior Pituitary in Diabetes Insipidus. <i>Malvina Schweizer, Robert Gaunt, Naomi Zinken and Warren O. Nelson</i> | 141 |
| The Passage of Thiocyanate and Glucose from the Blood Stream into the Joint Spaces. <i>J. Wallace Zeller, E. G. L. Bywaters and Walter Bauer</i> | 150 |
| The Relation of the Q-T Interval to the Refractory Period, the Diastolic Interval, the Duration of Contraction and the Rate of Beating in Heart Muscle. <i>H. A. Blair, A. M. Wedd and A. C. Young</i> | 157 |
| The Effect of Choleresis on the Rate of Excretion of Intravenously Injected Bilirubin. <i>A. L. Berman, E. Snapp and A. C. Ivy</i> | 176 |
| The Effects of Estrogen and Thyroidectomy in Female Rats on the Excretion of Creatine and Creatinine. <i>James B. Allison and Samuel L. Leonard</i> | 185 |

| | |
|--|-----|
| The Metabolism of Human Spermatozoa. <i>John MacLeod</i> | 193 |
| The Absorption of Carotene from Isolated Intestinal Loops. <i>J. Logan Irvin, Joseph Kopala and Charles G. Johnston</i> | 202 |
| The Effect of Thiamin Hydrochloride on the Muscular Dystrophy of Avitaminosis-E. <i>Arthur D. Holmes and Madeleine G. Pigott</i> | 211 |
| The Penetration of Radioactive Sodium and Phosphorus into the Extra- and Intracellular Phases of Tissues. <i>Jeanne F. Manery and William F. Bale</i> | 215 |
| The Electrical Response of the Kitten and Adult Cat Brain to Cerebral Anemia and Analeptics. <i>B. Libet, J. F. Fazekas and H. E. Himwich</i> | 232 |
| The Prothrombin Concentration in the Blood of Various Species. <i>Armand J. Quick</i> | 239 |
| The Effect of Denervation upon the Response to Adrenalin in the Isolated Fish Scale Melanophore. <i>Dietrich C. Smith</i> | 245 |
| The Effect of Priming Doses of Desoxycorticosterone Acetate in Preventing Circulatory Failure and Shock in the Adrenalectomized Dog. <i>W. W. Swingle, H. W. Hays, J. W. Remington, W. D. Collings and W. M. Parkins</i> | 249 |
| The Influence of Vitamin E-Deficiency on the Endocrine Glands of Rats, Particularly on the Gonadotropic Hormone Content of the Pituitary Gland. <i>Clyde Biddulph and Roland K. Meyer</i> | 259 |
| A Correlation of the pH of Arterial Blood and Urine as Affected by Changes in Pulmonary Ventilation. <i>Charles R. Brassfield and Vivian G. Behrmann</i> | 272 |
| Factors in the Absorption of Insulin from the Alimentary Tract. <i>R. L. Driver and J. R. Murlin</i> | 281 |
| A Comparative Study of Excised Cerebral Tissues of Adult and Infant Rats. <i>H. E. Himwich, P. Sykowski and J. F. Fazekas</i> | 293 |
| Origin and Extent of Gastro-Intestinal Motility in the Cat and Guinea Pig. Direct Observations on Fetuses. <i>R. Frederick Becker and W. F. Windle</i> | 297 |
| Certain Quantitative Aspects of the Pancreatic Response to Secretin. <i>Harry Greengard, Irving F. Stein, Jr. and A. C. Ivey</i> | 305 |

NO. 2. MARCH, 1941

| | |
|--|-----|
| Infra-red Spectrophotometric Studies on Hemoglobin as Affected by Cyanide, Methylene Blue and Carbon Monoxide. <i>Matilda Moldenhauer Brooks</i> | 311 |
| Coronary Reflex Dilatations Accompanying Contractions of Voluntary Muscles. <i>Charles W. Greene</i> | 321 |
| The Presence and Distribution of Histamine in Blood. <i>David Minard</i> | 327 |
| Biochemical Characteristics of Denervated Skeletal Muscle, at Rest and after Direct Stimulation. <i>R. Levine, O. Hechter and Samuel Soskin</i> | 336 |
| The Distribution of Radioactive Isotopes of Iodine in Normal Rabbits. <i>Irving Ariel, William F. Bale, Vincent Downing, Harold C. Hodge, Walter Mann, Stanley Van Voorhis, Stafford L. Warren and Helen J. Wilson</i> | 346 |
| The Magnitude and Time of Development of the Collateral Circulation in Occluded Femoral, Carotid and Coronary Arteries. <i>Richard W. Eckstein, Donald E. Gregg and Walter H. Pritchard</i> | 351 |
| The Pattern of Serum Proteins during Accelerated Growth. <i>E. S. Zawadzki and Arthur H. Smith</i> | 362 |
| Hormonal Influences on the Weight of the Adrenal in Inanition. <i>Michael G. Mulinos and Leo Pomerantz</i> | 368 |
| The Effect of Bile Acids on Hepatic Blood Flow. <i>F. S. Grodins, S. L. Osborne, A. C. Ivey and Leon Goldman</i> | 375 |
| Training in Human Muscles Working with and without Blood Supply. <i>G. L. Maisson and A. G. Broeker</i> | 390 |

| | |
|--|-----|
| Ovulation Induced in Mice by Single Injections of Follutein or Untreated Human Pregnancy Urine. <i>H. O. Burdick and Rae Whitney</i> | 405 |
| Relationship of the Plasma Volume and the Cell Plasma Ratio to the Total Red Cell Volume. <i>Eugene A. Stead, Jr. and Richard V. Ebert</i> | 411 |
| Distribution of Water and Electrolytes in Experimental Diabetes Mellitus. <i>F. William Sunderman and F. C. Dohan</i> | 418 |
| The Effect of Hypoxemia on Ventilation and Circulation in Man. <i>Erling Asmussen and Hugo Chioldi</i> | 426 |
| Parasympathetic Sensitization in the Cat's Eye. <i>Francis C. Keil, Jr. and Walter S. Root</i> | 437 |
| Comparative Effects of Progesterone and Corticoadrenal Extracts on Normal, Adrenalectomized and other Animals. <i>E. L. Corey</i> | 446 |
| Comparative Studies of the Metabolism of the Brain of Infant and Adult Dogs. <i>Harold E. Himwich and Joseph F. Fazekas</i> | 454 |
| The Inhibition of Gastric Secretion by the Intravenous Injection of Calcium Salts. <i>Rhoda Grant</i> | 460 |
| The Relation of Calcium Content to Acidity and Buffer Value of Gastric Secretions. <i>Rhoda Grant</i> | 467 |
| The Distribution of Injected Radioactive Potassium in Rats. <i>T. R. Noonan, W. O. Fenn and Lorraine Huege</i> | 474 |
| Measurement of the Blood Flow of the Liver. <i>John H. Grindlay, J. F. Herrick and Frank C. Mann</i> | 489 |
| The Formation of Hydroxytyramine by Extracts of Renal Cortex and by Perfused Kidneys. <i>R. J. Bing</i> | 497 |
| The Relationships between Total, Acid, and Neutral Chlorides of Gastric Juice. <i>John S. Gray, Gladys R. Bucher and Harry H. Harman</i> | 504 |
| Observations on the Water Intake in an Adult Man with Dysfunctioning Salivary Glands. <i>F. R. Steggerda</i> | 517 |
| The Action of Desoxycorticosterone Acetate and Progesterone on the Blood and Tissue Chlorides of Normal and Adrenalectomized Animals. <i>Hans Selye and Christiane Dosne</i> | 522 |
| Gum Acacia and the Oxygenation of Red Cells. <i>J. Victor Monke</i> | 529 |
| The Relation between the Fat and Carbohydrate Metabolism of Lactation, as Indicated by the Respiratory Quotient of the Mammary Gland. <i>E. P. Reineke, W. D. Stonecipher and C. W. Turner</i> | 535 |
| The Response of the Denervated Nictitating Membrane and of Blood Pressure to Sympathetic Nerve Stimulation in Adrenalectomized Cats. <i>R. A. Cleghorn, C. W. J. Armstrong, D. C. Austen and G. A. McVicar</i> | 542 |
| The Effect of Rattlesnake Venom (Crotalin) on the Plasma Histamine of the Rabbit. <i>A. L. Chute and E. T. Waters</i> | 552 |
| The Circulation in Rest and Work on Mount Evans (4,300 M.). <i>Erling Asmussen and Frank C. Consolazio</i> | 555 |
| The Reversibility of pH Effects on the O ₂ Consumption of Tissues. <i>A. Warren Stearns, Jr., Milton Greenblatt, Attilio Canzanelli and David Rapport</i> | 564 |

No. 3. APRIL, 1941

| | |
|---|-----|
| The Mechanism of Vagal Effects on Pulmonary Ventilation. <i>T. E. Boyd</i> | 571 |
| The Effect of Glycocoll (Glycine) Ingestion upon the Growth, Strength and Creatinine-Creatine Excretion in Man. <i>Alexander S. Chaikelis</i> | 578 |
| Studies on Choline Esterase Activity and Acetylcholine Content of the Central Nervous System. <i>R. Cortell, J. Feldman and E. Gellhorn</i> | 588 |

| | |
|---|------|
| Transfer of Radioactive Sodium across the Placenta of the Guinea Pig. <i>Louis B. Flexner and Herbert A. Pohl</i> | 594 |
| Reflex Studies after Muscle Transplantation. <i>W. G. Watrous and J. M. D. Olmsted</i> | 607 |
| The Effects of Denervation and of Stimulation on Exchange of Radioactive Potassium in Muscle. <i>T. R. Noonan, W. O. Fenn and L. Haeghe</i> | 612 |
| The Response of the Adrenalectomized Dog to Renin and Other Pressor Agents. <i>J. W. Remington, W. D. Collings, H. W. Hays, W. M. Parkins and W. W. Swingle</i> | 622✓ |
| The Calorie Intake and Weight Balance of Hyperthyroid Dogs in Relation to Vitamin B ₁ and Yeast. <i>Victor A. Drill</i> | 629 |
| The Effect of Thiamin on the Intestine of the B ₁ -Deficient Rat. <i>Macdonald Dick and J. Roy Hege, Jr.</i> | 636 |
| Cerebral Blood Flow and Brain Metabolism during Insulin Hypoglycemia. <i>H. E. Himwich, K. M. Bowman, C. Daly, J. F. Fazekas, J. Wortis and W. Goldfarb</i> | 640 |
| Observations on the Rôle of the Thebesian Veins and Luminal Vessels in the Right Ventricle. <i>Richard W. Eckstein, Joseph T. Roberts, Donald E. Gregg and Joseph T. Wearn</i> | 648 |
| The Inherent Inadequacies of the Double Histamine Test for Studies on Pepsin Secretion. <i>Gladys R. Bucher and A. C. Ivy</i> | 654 |
| The Storage of Carbohydrate Food. <i>Eaton M. MacKay and Douglas R. Drury</i> | 661 |
| Prothrombin and Fibrinogen in Lymph. <i>K. M. Brinkhous and S. A. Walker</i> | 666 |
| A Comparison of the Effects of 11-Desoxycorticosterone Acetate and 17-Hydroxy-11-Dehydro-Corticosterone in Partially Depancreatized Rats. <i>Dwight J. Ingle and George W. Thorn</i> | 670 |
| Conditions in Which the Liver Retains Lactic Acid. <i>H. Berry Ivy and Lathan A. Crandall, Jr.</i> | 679 |
| Respiratory and Metabolic Effects of Hypothermia. <i>D. B. Dill and W. H. Forbes. With the technical assistance of Frank Consolazio</i> | 685 |
| Is Histamine Able to Maintain an Augmented Pepsin Response Comparable to That of Pilocarpine? <i>G. R. Bucher, A. C. Ivy and J. S. Gray</i> | 698 |
| Studies on the Distribution of Radioactive Fluoride in the Bones and Teeth of Experimental Animals. <i>J. F. Volker, R. F. Sognnaes and B. G. Bibby</i> | 707 |
| The Nature and Location of the "Sphincter Mechanism" in the Liver as Determined by Drug Actions and Vascular Injections. <i>L. J. Deysach</i> | 713 |
| Studies on Turtle Hearts—the End of Systole, the Duration of the Refractory Period, the Latent Period of Extrasystoles and the Influence of Heart Rate on Aortic Blood Pressure. <i>R. A. Woodbury</i> | 725 |
| Recovery of Function Following Arrest of the Brain Circulation. <i>Herman Kabat, Clarence Dennis and A. B. Baker</i> | 737 |
| A Quantitative Method for the Measurement of the Rate of Water Loss from Small Areas, with Results for Finger Tip, Toe Tip and Postero-Superior Portion of the Pinna of Normal Resting Adults. <i>Charles Neumann, Alfred E. Cohn and George E. Burch</i> | 748 |
| The Lactic Acid Mechanism and Certain Properties of the Blood in Relation to Training. <i>S. Robinson and P. M. Harmon</i> | 757 |
| Chemical Changes in the Brain Produced by Injury and by Anoxia. <i>William E. Stone, Clyde Marshall and Leslie F. Nims</i> | 770 |
| The Response of the Cerebral Cortex to Local Application of Strychnine Nitrate. <i>J. G. Dusser de Barenne, Clyde Marshall, Leslie F. Nims and W. E. Stone</i> | 776 |
